

# **YOUR HEALTHCARE STORY MATTERS**

## ***A Patient Rights and Healthcare Transparency Project***

*Have you ever felt confused, ignored, or overwhelmed by a medical bill or by trying to get clear information about your healthcare?*

You're not alone.

I'm a patient and writer collecting **anonymous stories** about:

- confusing or unexpected medical bills
- difficulty getting itemized bills
- trouble communicating with a medical office
- feeling dismissed, intimidated, or afraid to speak up
- being unsure of your patient rights

Your experience can help build a clearer picture of what patients are going through.

**Submit your story anonymously here:**
